Conference/Your name.

All money raised is going to this year's chosen charities:

Tonic Music for Mental Health

Tonic Music for Mental Health is a not-for-profit organisation based in Southsea, established June 2012. Tonic raises awareness and challenges the stigma often associated with mental illness through music and art-based events and activities

NHS Portsmouth Hospital

A new charity just starting out, based around the community and rehabilitation team in the Stroke Rehabilitation Ward at Queen Alexandra Hospital, who were hugely supportive to Roger Sherliker and his family. The charity is being set up in part by John Bannell who was a past Chairman of the Association in 1976.

Planets Cancer Charity

Planets Cancer Charity is based at Southampton General Hospital and helps patients with pancreatic liver, colorectal, oesophageal, stomach and neuroendocrine cancer by funding patient support groups, innovative treatments and research. Planets have also recently supported a very popular and well-known member of the PPA following a cancer diagnosis.
